

# ANTONIO ORLANDO

WORLD LOVER'S // GRAPHIC & MULTIMEDIA DESIGNER // APPRENTICE CHEF

## ABOUT ME

I was born and educated in Naples, where I graduated at the ISD (National Institute of design) with a first class degree.

I live and work in Turin with my lovely bike of course. My approach about visual design is completely varied and I always try my best to experiment the many shades that hide behind photography, illustration, multimedia and new technologies delivering "on top" ideas to brand new concepts.

My motto is: "Learn everything you can. Try everything that happens to you. Look at all that there is to look at. Search, experience, be wrong, fall, rise up. Give yourself to religion, become conservative, be radical and after all forget everything and try to find your own way to create". *Fons M. Hickman.*
